I MPORTANT IF TRUE.

We learn from a reliable and undoubted source that Col. A. S. Buford, President of the Richmond & Danville Railroad, has called a special meeting of the Directors of the North Carolina Railroad, to take place at Company Shops this day.

While it is not certainly known what the real object of the meeting is, yet it is currently reported that Col. Buford will surrender the lease of the North Carolina road which was made to the Richmond & Danville Railread, and thus put an end to the litigation now going on, touching the legality of the lease and the right of the Richmond & Danville road to change the guage of the North Carolina road from Greensboro to Charlotte. Thisact of the President of the Richmond & Danville road, if the report turns out to be true, cuts the gordian knot which our judicial officers have not yet unravelled.

If the Editor had published the correspondence in full, without contenting himself with a brief extract from the Worthy Chief's letter, the falsity of his comments would have been apparent to his readers and would have saved us the necessity of referring to the matter at all.

The statement in the Spirit of the Age, so far as it seeks to create the impression on the public mind that the Worthy Chief asked us to publish his letter, is without the shadow of toundation, and we dare him to produce the evidence. We only inferred that it was the purpose of the author of the letter to publish it in the Spirit of the Age, as he marked the letter he sent us, "a copy." The Great Fire in Portland, Ore-gon-An Estimated Loss of \$1, 500,000. PORTLAND, August 3.—The fire yesterday commenced at 4:20 a, m., and

spread over the entire block before the fire department arrived seven blocks had been consumed. They stopped the farther progress of the fire northward, but when all available assistance had arrived there were only seven engines. The subdued fire was half a mile in length and a quarter of a mile wide. As fast as it was suppressed in one direction it broke out in another, while new fires, supposed to be the work of incendiaries, were continually being discovered. The fire only ceased for the want of material. Among the losses are two engine houses, two sash factories, three founderies, four mills, five hotels, one hundred stores and two hundred and fifty dwellings. One hundred and fifty homeless families are now encamped in the public parks. The loss is estimated at one million, five hundred thousand dollars, on which there was an insurance of \$200,000. Foreign companies lose heavily, among which are the following: The Imperial, of London, \$80,000; the London, Liverpool & Globe, \$40,000. About \$500,000 was lost in removing goods. Many persons considered rich yesterday are now poor. The fire was first discovered by a captain of a river steamer, who sounded the alarm. The material was dry and burned like tinder. Many articles were burned during their zemoval. During the burning of Walker's factory the proprietors offered one thousand dollars for a stream of water from an engine for ten minutes. Churches have been converted into dwelling houses. The Common Council issued food tickets for the destitute and a call for aid for sufferers from other cities.

MIDNIGHT DISPATCHES.

Over \$3,000,000.

Commission sitting at Washington, under the Act of Congress of March 3rd, be deemed necessary in view of the sit-1871, have now been numbered and

registered, and their number is found to to be 22,295, and their aggregate amount as claimed, is something in excess of fifty-six million of dollars. In their last report to Congress, the

Commissioners estimated the total number of claims to be filed under the Act, at 19,000, and the amount to be claimed at fifty million of dollars in round numbers, the extraordinary exertions of the claim agents, however, when they found that the time for filing claims was not likely to be extended for the present beyond the two years originally fixed by Congress, resulted in a considerable addition to the estimated number and amount of claims to be filed.

No less than 1,278, representing according to claimants, figures considerably more than three million dollars were filed under the date of March 3rd, the last day allowed by law for the presentation of claims. Many more were shut out from present consideration by the somewhat unexpected termination of the right to present them, and there are believed to be several thousand persons yet in the late insurrectionary States, who despite the exertions of the Govcrnment Agents and the Attornies, have not even heard of the act of Congress, passed for the benefit of such of them as were not adherents of the Confederacy. Claims are presented daily to the Quarter Master General and Commisary General by residents of the better informed loyal States, who have but just learned that Congress passed a special act nearly ten years ago to pay for the property taken for army use in

the States not in rebellion. General Meigs, the Quartermaster General, will not recommend a statute of limitation for claims coming before the loyal claims commission and the Commissary General, believing from his daily experience, that such a statute, whenever passed, would be certain to exclude mentorious claims against the government from a just settlement as in the case of the southern claims. Congress must either extend the time for filing them before the commissioners, or submit to the alternative of receiving and considering them singly, under the constitutional right of petition, and a small number of excluded claimants have already signified their intention of prosecuting their claims directly before the Claims Committees of the two branches of Congress.

Under the settlement so far made by the Commissioners, about one million two hundred thousand dollars has been distributed among some fourteen hundred claimants scattered all over the eleven insurrectionary States, the awards except in a comparatively small'number of cases being for a few hundred dollars

At the coming session of Congress they expect to award about one million dollars, to be similarly distributed, and will then have disposed of about twenty-four per cent. of the number of claims New Eutrochet. SAM'L T. WILLIAMS, Political Editor. ...AUGUST &, 1878. THESDAY ..

THE ELECTION, AUGUST 7TH. The election to be held in this State on the first Thursday in August, on the constitutional amendments, is one of vast importance to our people.

It involves vital changes in the organic law of the State.

For the information of voters, we publish on our fourth page, and shall keep standing until the day of election, the clauses in the Constitution proposed to be altered, together with the eight amendments that passed the Legislature by the which are to be submitted to the people for seventh day of August next.

All the amendments proposed are necessary and important, and those who favor them should not fail to vote.

THE MANNER OF VOTING. concerning the manner of voting at the

ensuing election in August. For the information of voters, we

THERE MUST BE EIGHT BOXES. There are eight amendments in all. As they are to be voted on separately, the poll-holders must have EIGHT BOXES for the ballots. Each box should be labeled with a written or printed form, specifying the particular amendment to be voted on in said box.

THERE SHOULD BE EIGHT LABRIS. The following are the eight forms which should be labeled on the eight boxes, respectively:

Amendment to the Constitution of North Carolina in relation to the Public Debt.

Amendment to the Constitution of North Carolina in relation to the office of Superintendent of Public Works. П. Amendment to the Constitution of

Census. Amendment to the Constitution of

versity.

Amendment to the Constitution of North Carolina in relation to the Code VIII

Amendment to the Constitution of and other officers holding office. THE BALLOTS.

The ballots should be written printed, either with the words "For Amendment" of the words "Against Amendment "

Persons voting for the amendments should use the former, while those vot-ing against the amendments the latter. THE POLLS.

Sheriffs must open the polls at the several election precincts in their respective counties on the seventh day of August, at eight o'clock in the morning and keep them open until seven o'clock in the afternoon.

WHO MAY VOTE.

Every person qualified to vote according to the Constitution may vote for or against each amendment.

At the close of the polls, the judges of the election shall count out separate ly the number of votes cast for and against each amendment. After all the returns from each county have been offi-cially counted, it will then be ascertained which of the amendments have been ratified, if any, and which rejected ents which receive a majority of the popular vote of the State will be duly ratified and become then a part of the Constitution of North Carolina. A part or all of them may be either ratified on rejected.

educated talent of North Carolina may be enlisted in its behalf and contribute to its success.

The condition of education in this State is most deplorable and appalling. The public mind needs to be aroused from its apathetic indifference on this subject. THE ILLINOIS GRANGES.

The Granges of De Witt county, Illinois, have nominated a full ticket for county officers, as we are informed by Sunday's telegrams.

It is positively asserted by the lectuturers of the Patrons of Husbandry that the order has no connection with poli-

Mr. Long, the State lecturer for North Carolina takes the same position in his speeches.

By an act of the Legislature of North Carolina, passed on the 17th of March, 1871, entitled "An Act to shppress secret political societies," it is made a misdemeanor for any person to connect himself with any secret political organization of any requisite constitutional majority, and character. The act in question forbids any persons forming themselves into approval or rejection, on Thursday, the political associations in which a "solemn secret pledge" is administered to the members.

If the principles upon the Granges have organized are political in their nature, or involve questions laid down and taught in our text-books on Constant inquiries are made of us the subject of political economy, it may be that the Courts will hold that the farmers' movement is of a political charhave prepared the following instruc- acter, and that therefore its secret feature is forbidden by the laws of North Carolina. What a political society is, is purely a question of law.

We throw out these hints for what they are worth, with the view of showing those of our friends who have already joined, and those who contemplate joining the order, the necessity of steering clear of politics in their Grange meetings.

We believe the objects of the Grangers are commendable, and we have approved of them in the main. We have condemned the secrecy of the order because we believe that feature will lead to secret societies among other classes. We are opposed to secret associations except for purely benevolent purposes.

We believe the Patrons of Husbandry North Carolina in relation to the State can organize the farmers successfully without administering secret pledges. After all, the Courts may hold the society is a political one, and if so, its members are liable to indictment, by reason of their connection with the order.

The nomination of a full ticket by the DeWitt county Granges evidently squints at politics, however earnestly the Convention which nominated the candidates may have protested that its action was non-political.

BE SURE TO VOTE !

Only two days to the election ! Have you examined the registration Have you considered the importance of the ratification of the amendmentsnot only to yourselves, but to the future generations that are to live under the Constitution of North Carolina?

Have you told your neighbors who do not take the papers, of their duty in the premises?

Have you explained to them the changes proposed in the organic law of the State-changes that will reduce the burdens of taxation and initiate many needed reforms ?

Only two days to the election

If the amendments are voted down, it will be because our people are too indifferent to their interests to relieve themselves, when relief is placed within their reach !

Only two days to the election, and vet we hear that the masses are lukewarm and will not take the trouble to cast their votes on election day !

It is strange—it is passing strange What do our people mean! Have they become so discouraged and broken down in spirit that they are callous and reckless? No! We cannot-we will not believe it. But they are strangely apathetic.

TO THE POLLS ! Before this paper reaches some of our subscribers, the fate of the constitutional amendments may have been determined.

We have devoted much of our space for the past few weeks to the subject of the election, for the reason that we have This is a practical step in the right found that an unaccountable lethargy gard to the result.

We urge upon our subscribers not only the duty of voting themselves, but The work should appear in a nest of doing all in their power to see that

This is no ordinary election. Permanent changes are proposed in our laws-changes which may affect the welfare of the State for all future time.

The benefits to be derived from a modification and amendment of certain oppressive clauses in the Constitution are not temporary, as one of our Conservative exchanges contends, but will be as substantial and permanent as the fundamental law can make them.

For a full understanding of these Read them, and resolve that you will

go to the polls on election day and vote for their ratification.

The Washington Republican, the organ of Grant, takes a deep interest in Virginia politics. Now that its favorite,

THE PORTLAND FIRE-AN-OTHER WARNING TO RALEIGH. Sunday's telegrams announce the destruction by fire of the business portion of the flourishing little city of Portland,

To-day, over one hundred and fifty homeless families, without food or shelter, are camped in the public parkdependent upon the charity of their more fortunate neighbors for means of subsistence.

The property destroyed by the conflagration is estimated at one million and a half of dollars-about two hundred thousand of which was insured, mostly in foreign companies. It is sta ted that about half a million dollars of property was lost in removing it from the fire.

Will not the frequency of large conflagrations in other places arouse the property holders of this city to the importance of taking steps towards the establishment of water works for their own protection? Do they imagine that | Raleigh is safe from the visitations of the fire-fiend? If so, they may be at | a no very distant day realize in the sudden destruction of their property that their fancied security is a delusion,

The upparalleled intamy of Rev. Solomon Pool, in attempting to injure the character of an innocent and highly esteemed lady, has produced deep indignation in this community.

The public could tolerate his shameful treatment of the University-his malfeasance as President of that institution in permitting the building to be despoiled, the libraries to be robbed, and the halls to be mutilated, but they will not submit in silence when he comes forward under his own name and calumniates one of the first ladies in the State, by deliberate and slanderous imputations. Such a creature should be spurned by all honorable men.

North Carolina feels a deep interest in the contest in Virginia. The prospects for the defeat of Hughes, the Radical nominee for Governor, are first rate. Mosby, the "Guerilla chief," cannot stand Hughes, but will support the Conservative nominee. The tune of our Virginia cotemporaries is buoyant and sanguine. The good feeling which prevails among 'the Conservatives is the best augury for the success of our ticket. ATEFAIR

BILLOUS.—If you feel dul!, drowsy, debilitated, despondent, have frequent heahache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Billiousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

How unnecessary the anguish many persons undergo from rheumatism, gond, neuralgia, toothache and earache. We say neuraigia, tootnache and earache. We say unnecessary because the application of Mexican Mustang Liniment to the effected part, or a few drops of it in the ears or tooth, affords instantaneous, and what is better, permanent relief. For cuts wounds better, permanent reilef. For cuts wounds, bruises, swellings, and all injuries of a baseases which require treatment ext rundly this liniment is every where regarded as the most potent and reliable healing agent in existence. MENTS. In order that the people may vote understandingly on the amendments to the Constitution, at the ensuing election, we deem it necessary to give in full the clauses in that instrument proposed to be altered, together with the alterations themselves.

FIRST : IN RELATION TO THE PUBLIC

The present Constitution in Article I, Declaration of Rights, provides as fol-

"Sec. 6. To maintain the honor and good faith of the State untarnished, the public debt, regularly contracted before and since the rebellion, shall be regarded as inviolable and never be questioned; but the State shall never assume or pay, or authorize the collection of any debt or obligation, express or implied, incurred in aid of insurrection, or rebellion against the United States, or any claim for the loss or emancipation of any slave."

This section is amended by striking out the first clause down to and including the word "but," so that the amended clause in Article I will then

"Sec. 6. The State shall never assume or pay, or authorize the collection of, any debt or obligation, express or implied, incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave."

Another alteration in regard to the public debt is provided for in the same amendment, by striking out section 4, Article V of the present Constitution, which is as follows:

"Sec. 4. The General Assembly shall, by appropriate legislation and by adequate taxation, provide for the prompt and regular payment of the interest on the public debt, and after the year 1880, it shall lay a specific annual tax upon the real and personal property of the State, and the sum thus realized shall be set apart as a sinking fund, to be devoted to the payment of the pub lic debt."

So that the above section will be entirely stricken out and the amended Constitution will not make it compulsory on the Legislature, by express language, to provide for the payment of interest and principal of the public the General Assembly."

SECOND: IN RELATION TO THE OFFICE OF SUPERINTENDENT OF PUBLIC WORKS. Article III, section 1, of the present Constitution names among the other officers of which the Executive Department shall be composed, a Superintenelected for a term of four years by the the General Assembly." qualified voters of the State, at the same ner as members of the General Assem-

lic Works" wherever they occur in the Constitution, thus abolishing that SEVENTH: IN RELATION TO THE CODE THIRD: IN RELATION TO THE STATE

CENSUS.

II, the following provision is made for taking a State Census:

"Sec. 5. An enumeration of the inhabitants of the State shall be taken under the direction of the General Assembly in the year one thousand eight hundred and seventy-five, and at the end of every ten years thereafter; and the said Senate Districts shall be so altered by the General Assembly, after the first session after the return of every enumeration taken as aforesaid, or by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The amendment proposed to this Article is to strike out all that precedes the words, "the said Senate Districts," in section 5, and to strike out the phrase at the same time : Provided, That offi-"as aforesaid, or," the parts so stricken out relating to the census, so that the section as amended will read:

"Sec. 5. The said Senate Districts shall be so altered by the General As-sembly at the first session after the re-turn of every enumeration taken by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The object of this amendment is to do away with the unnecessary expense of taking a State census under the direction of the General Assembly, inasmuch as the same work is done by the national Government.

FOURTH: IN RELATION TO EXEMP-TIONS FROM TAXATION.

The present Constitution, Article V' Revenue and Taxation, provides as fol-

"Sec. 6. Property belonging to the State or to municipal corporations, shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, acientific. literary, charitable or religious purpo-ses; also wearing apparel, arms for mus-ter, household and kitchen furniture, the mechanical and agricultural imple ments for mechanics and farmers, libra-ties and scientific instruments, to a value not exceeding three hundred dollars."

The amendment proposes to change this section by inserting after the word this section by inserting after the word Cauliflower, [Gerkins, &c., at MOSELEY'S. July 12-tf W. C. STRONACH.

personal property," so that the section as amended will read :

"Sec. 6. Property belonging to the State, or to municipal corporations shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms tor muster, household and kitchen furniture, the mechanical and agricultural implements of mechanics and farmers, libraries and scientific instruments or any other personal property, to a value not exceeding three hundred dollars."

FIFTH: IN RELATION TO THE UNI-VERSITY.

The present Constitution, Article IX has the following on the subject of the University at Chapel Hill:

"Sec. 5. The University of North Carolina, with its lands, emoluments and franchises, is under the control of the State, and shall be held to an inseparable connection with the free public school system of the State."

The amendment proposes to strike out this section entirely, thus severing the University from the common school system, and insert the following in lieu thereof, so that the amended Constitution shall read:

"Sec. 5. The General Assembly shall have power to provide for the election of trustees of the University of North Carolina, in whom when chosen shall be vested all the privileges, rights, franchi-ses and endowments heretofore in anywise granted to or conferred upon the trustees of said University; and the General Assembly may make such provisions, laws and regulations, from time to time as may be necessary and expedient for the maintenance and manage ment of said University."

The following sections of Article IX relating to the University, are also stricken out:

Sections 13, 14 and 15, relating to the appointment of trustees by the Board of Education, and the officers powers and rights of the trustees. These matters will hereafter devolve on the Legislature, if the amendment relating to the University is ratified. SIXTH: IN RELATION TO THE SESSIONS

OF THE GENERAL ASSEMBLY. The present Constitution, Article II Legislative Department, provides as fol

"Sec. 2. The Senate and House of Representatives shall meet annually on the third Monday in November, and when assembled shall be denominated

This section is to be amended by striking out the word "annually," and inserting in lieu thereof the word biennially," so that the section amend

ed shall read : "Sec. 2. The Senate and House of Representatives shall meet biennially on the third Monday in November, and dent of Public Works, who shall be when assembled shall be denominated

This amendment also strikes out the time and places, and in the same man- word "annually" in section 6, Article III, and inserts the word "biennially," in reference to the requirement of the The amendment proposes to strike Governor to communicate to the Genout the words "Superintendent of Pub- eral Assembly each case of reprieve. commutation or pardon.

COMMISSION.

The present Constitution, Article IV Judicial Department, makes the follow-In the present Constitution, Article ing provisions concerning the Code Commissioners:

"Sec. 2. Three Commissioners shall be appointed by this Convention to re-port to the General Assembly at its first session after this Constitution shall be adopted by the people, rules of practice and procedure in accordance with the provisions of the foregoing section, and the Convention shall provide for the Commissioners a reasonable compensa-

Sec. 3. The same Commissioners shall also report to the General Assembly as soon as practicable, a code of law of North Carolina. The Governor shall have power to fill all vacancies occurring in this commission."

The amendment proposes to strike out both these sections, thus abolishing the Code Commission. BIGHTH : IN RELATION TO FEDERAL AND

OTHER OFFICE-HOLDERS. The present Constitution, Article XIV, provides as follows:

"Sec. 7. No person shall hold more than one lucrative office under the State cers in the Militia, Justices of the Peace. Commissioners of Public Charities and Commissioners appointed for special purposes, shall not be considered officers within the meaning of this section."

The amendment proposes that this section shall read as follows:

"Sec. 7. No person who shall hold any office or place of trust or profit under the United States, or any department thereof, or under this State or any other State or Government, shall hold or exercise any other office or place of trust or profit, under the authority of this State, or be eligible to a seat in either House of the General Assembly: Provided, That nothing herein contained shall extend to officers in the Militia, Justices of the Peace, Commissioners of Public Charities or Commissioners for special purposes."

There were eighteen amendments originally proposed, but the eight above specified were all that passed the General Assembly by the requisite twothirds majority.

These eight amendments are to be submitted separately for ratification or rejection, at the election to be held on Thursday, the seventh day of August Any person qualified to vote may vote for or against each amendment, with a written or printed ticket with the words "For Amendment," or "Against Amendment." The amendments that receive a majority of the popular vote will be duly ratified. A part or all of them may be either ratified or rejected.
